- 29 May Central Texas Challenge Austin

Sanctioned Match NEWS

Florida State Championship 26 March.

A total of 9 TTS Team members attended this match. This match consisted of a complete DARK stage, with charges and movers, with shooters accuracy being tested with a 35 Yards long El-Prez. Team TTS Returned with 3 trophies.

Arkansas MVSA Regional 26 March.

A total of 8 TTS Team members attended this match.

The Texas shooters had to visit the local Wal-Mart to get winter gear as a cold spell hit and everyone was caught with their 85F TEXAS outfits! In the cold and rain we competed. The match had unbelievable stages from a sky-lift to pneumatic and motion activated movers and Team TTS secured 5 trophies... With a BUMP Congratulations to Deon Greenwood he got bumped from SSP Sharpshooter to SSP Expert.

Costal bend Challenge 3 April.

Approximately 20 Team TTS went out and dominated all classes from Novice to Master, with one of our members BUMPED from SSP Expert to SSP Master..... Well Done Alex.

The complete board of directors made it down for the match. Thank you guys for setting a great example!

The match consisted of a knife fight leading to shooting targets that was completely hidden, and although it was not IDPA legal all shooters participated and dealt with it.

Alabama State Championship 16 April

A Total of 8 Team TTS shooters made it to Alabama to compete in a match that was filled with pop ups that disappeared in less than 2 seconds and it pushed all level shooters to the limit of their talents. I had a few MOLT moments (momentarily laps of talent). Shots ranging from 1 yard to targets with hard cover at 40 Yards. Some of us also had to learn to shoot from the prone position for the first time. This match was one of the toughest matches according to one seasoned IDPA veteran

Never the less we came back with 7 trophies and a BUMP. Ricky got bumped from ESP Sharp shooter to ESP Expert. Well done Ricky.

General:

By the looks of things our TTS IDPA club is doing things right with regular fun / practice matches which include great challenging stages to groom Team TTS shooters talents enabling them to compete at Regional and State levels with success..

This is our 1st TTS News Letter. We decided to cover major match events back to Feb 2011 to date. We will be reporting on many more topics in the future.

2011 Badlands Regional / Oklahoma State IDPA Championship

A total of 5 TTS Team members attended this match. On the drive up on Friday the 15th, TTS Shooters encountered the results of tornado damage in the city of Atoka, Oklahoma. A Class 3 tornado had passed through the center of town. Destruction Delux. The Championship consisted of fifteen complex stages requiring tight cover, shooting at movers, and taking a knee ... lots of knees. The stage that frustrated the most shooters however, involved the dreaded Texas Star HeeeeHAAAAA. Again one of the TTS shooters got BUMPED. OJ got bumped from SSP Sharp shooter to SSP Expert. Congrats OBIEWAN
